

CJIS Executive Committee Meeting

Thursday, April 12, 2007 1:00 pm – 3:00 pm BCI Main Conference Room, Bismarck, ND

Agenda

1. Approve March 08, 2007 Meeting Minutes

2. CJIS Committee Members

ND Sheriff's Association Replacement – Pat Heinert

3. CJIS Architect position

Interviewing 2 candidates

4. Review CJIS Program Status

- CJIS Hub
 - Need to determine record retention length on Record Management Systems brought into CJIS
- Justware Prosecutor (STARS)
- Local Law Enforcement Integration Project
 - Attorney General Opinion on indexing Juvenile and Victim Information
 - Indexing of Juvenile Information Based on time and budget constraints, the decision was made not to index juvenile information from LERMS in this project. If it is desired to index juveniles, this would be done in another project. The contributing agency ultimately has the decision to share information. Action requested from Executive Committee: A decision needs to be made if CJIS should index and or view juvenile records.
 - Victim Information If a record in CJIS contains contact information of a victim, the record should be marked to alert the receiving entity that the record contains confidential information that must be protected. Action requested from Executive Committee: A decision needs to be made if CJIS should index and or view <u>victim</u> information.
- Court Protection Order Project
 - Project Timeline has been received with an expected implementation date by June 29, 2007.

5. Disaster Recovery of CJIS Systems

Met with Larry Lee on disaster recovery. He is working on getting costs to implement a disaster recovery solution.

6. Legislative Session Status

7. Discussion/issues

Review CJIS Hub user requests
